## Personal Profile

I am a Product Designer pursuing Bachelor's Degree in Product Design from The School of Industrial Design, UID, Ahmedabad.

Product Design is all about developing new innovative solutions and redesigning existing products to induce human ergonomics/aesthetics, that meets the demand of consumers.

My passion from childhood helped to understand every working principle, from simple mechanical solution to complex system has driven me to pursue and exploit my interests in the various fields of Product Design, through Data Analytics, Prototyping & Virtual Rendering, User Interface and User Experience Design. It is about solving the users' problems through the process of design thinking.
